PocketRasTrac®
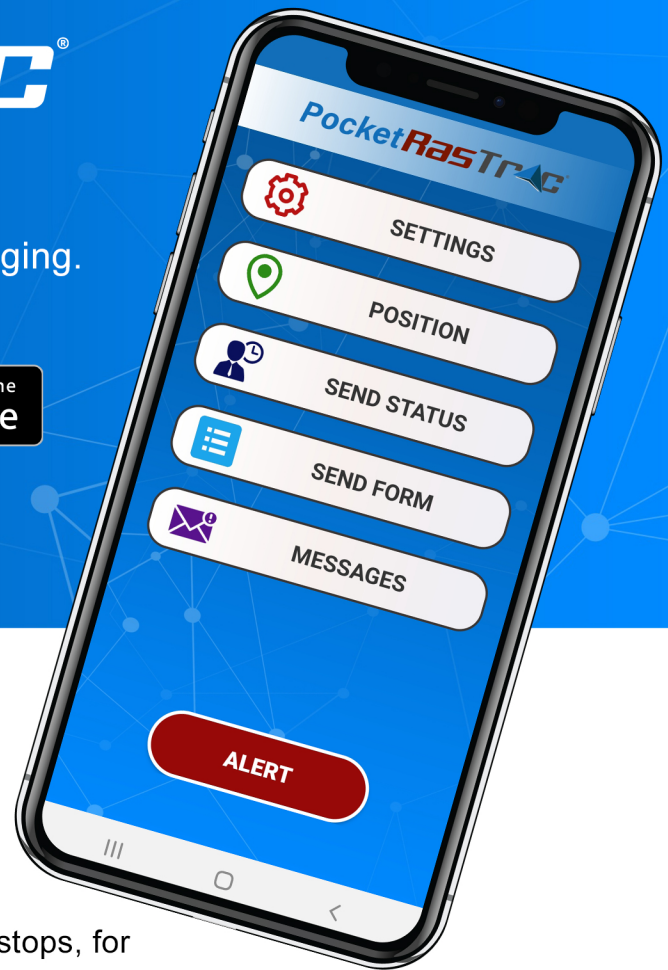

Turn your iPhone, iPad, or Android device into a GPS tracker, complete with secure, 2-way messaging.

GET IT ON Google Play

Download on the App Store

Locations: View real-time positions of mobile devices on Google Maps

Messaging: Stay in contact with employees out in the field with secure messaging capabilities

Tracks: View travel history, including mileage and stops, for any time period you wish

Security: You have the ability to schedule the app to monitor and report only during specified work hours

Statuses: Receive status updates from employees, including timecard information (clock-in, start lunch, clock out) and if the alert button is activated

Requirements:
• A mobile device that supports Android or iPhone applications and has GPS capabilities
• A PocketRastrac Android or iPhone application
• Rastrac software or tracking service

Our PocketRastrac app allows you to track your employees, team members, or assets without having to purchase costly hardware. All you need is an Android device or iPhone/iPad. PocketRastrac transforms your device into an advanced tracking platform, complete with reporting based on time, distance, speed, and turn detect.
